

SEALES PERFORMANCE STOCKFEED SUMMER RANGE OUT NOW

MAXI-PRO

Specifically formulated for high producing cows and targeted at the 'post peak' summer period. Seales Maxi-Pro pellets contain a minimum of 20% protein to balance 'low protein' pasture during the summer period.

SUMMER PRO PLUS

An ideal supplement for mid to late lactation through summer and autumn to support high production and maintain body condition through to the end of lactation.

SUMMER SPECIAL RANGE

These pellets contain good levels of protein, starch and energy and contain lime and salt combined with essential vitamins and minerals. Developed as a quality, lower cost pelletised feed option for lactating dairy cows and growing animals.

Christmas Hours

Remember that with Christmas only a couple of weeks away planning is essential to ensure you do not run out of Seales feed over the holiday period. We will be operating every day apart for the statutory holidays. Due to the shorter weeks it is important that we receive an extra two days notice of your order requirements to ensure your feed arrives on time.

Christmas Wishes

On a more personal note, the entire Seales Team wish you all a safe and enjoyable Christmas and look forward to seeing you all in the New Year, if not before.
