SEALES PREMIUM GOLD 20% CALF PELLETS

Seales Premium Gold 20% Calf Pellets have been specifically formulated to grow strong healthy calves and are manufactured using high levels of grains, vitamins, minerals and amino acids to support rumen development to ensure your calves get the best possible start.

SEALES PREMIUM GOLD 16% CALF PELLETS

Seales Premium Gold 16% Calf Pellets are an ideal feed for calves of all ages, and have been formulated to include the ideal balance of ingredients essential to ensure growth and production targets are easily met.

LEVUCCELL SC

Add Levucell SC to your Seales Premium Gold Calf Pellets to enhance rumen development, improve weight gain and reduce animal health costs. Levucell SC aids in the establishment of a healthy rumen microbial population, encouraging the growth and development of rumen papillae and improving digestion of solid feed. Available in the North Island EXCLUSIVELY FROM SEALES PERFORMANCE STOCKFEED Levucell SC is an extremely stable live yeast which scavenges oxygen in the immature rumen of the young calf, helping to speed up the development of the rumen flora. Trial work has shown increased daily weight gain, improved feed conversion efficiency and reduced medication costs for calves fed Levucell SC compared to control groups.

Add Levucell SC to your Premium Gold Calf Pellets to:

- Promote early rumen development
- Improve daily liveweight gain
- Improve feed conversion efficiency
- Reduce animal health costs
- Reduce the risk of digestive upsets at weaning

Contact Seales to have Levucell SC custom blended into your Seales Premium Gold Calf Pellets
